

my.manpower.nl Instructions

Welcome

Username: your email address (use capital letters if instructed). Password: write it down here: _____

Welcome to the Manpower portal (mijn.manpower.nl). Here you will find all personal information you need for your work. Follow the steps in this guide to activate your account. Questions? Contact your Manpower consultant.

1. Activate your account

You will receive an email with an activation link. Click the link and set your password. Afterwards, you can use your email address and chosen password to access the portal. Important: the activation link can only be used once and remains valid for 5 days.

2. Secure sign-in

To ensure secure access, enter a verification code in addition to your email address and password. You can receive the code via an Authenticator App or SMS.

2.1 Authenticator App

Download the Microsoft or Google Authenticator app. Add your account using the same email address as your portal login. In the portal, go to Manage Account > Two-Factor Authentication and enable Authentication App.

Linking the App

Scan the QR code displayed in the portal or manually enter the provided code. Follow the on-screen instructions. After completion, your account is securely linked.

2.2 SMS

Go to Manage Account > Two-Factor Authentication and choose SMS. Enter your mobile number and request a verification code. Enter the code received and verify it. Then select Yes for Use two factors and save your settings.
